

WHAT DO OUR CUSTOMERS SAY ABOUT E-Z-JAX?

Ericson 38, Randy Peterson, Grosse Ile, MI - "I bought the E-Z-JAX . . . at the Annapolis Boat Show . . . They work great and I can't believe that the other systems are still in business."

54-Footer, Fred & Corinne Van Raden, Portland, OR - "I want you to know that we love the E-Z-JAX's. They work perfectly! At times my wife and I sail the boat alone . . . we are in our seventies. Your installation instructions are very thorough . . . Thanks for a fine product."

Tartan 33, Dave Telander, Cape Coral, FL - "I thought I would tell you how successful your lazyjack system was . . . last summer cruising the Great Lakes. Our mean cast iron mainsail became a pussycat . . . Often we slacked away one side, letting the main blow off on that side while hoisting . . . The cost . . . plus the neat splices and clear instructions makes your system far superior to any other I have seen."

Tayana 37, Graham Berry, Willingale Ongar, England - "Thanks . . . for getting the EZ JAX to me before Christmas. I fitted them over the holiday. They work beautifully! Many thanks for a great product!"

Catalina 42, Garry Willis, Marina del Rey, CA - "We studied a lot of main flaking systems before deciding on this one. Some friends, who recently purchased a new D-42, also installed one and have had the same positive results. It works great!"

Pearson 36, Lou Reynolds, Bellevue, WA - "Just thought I'd let you know I really love my E-Z-JAX!!"

Beneteau 32, Bill Brown, Amherst, NH - "I installed the E-Z-JAX system . . . myself and it was very easy . . . my 9 year old son drops the sail as I flake it, in less than 10 minutes the main is down, tied and sail cover on. (Before) there was always a problem . . . yelling to keep the boat into the wind . . . a time the crew didn't look forward to . . . Thanks for a great product."

Hunter Legend 37, Robert Klement, Bradenton, FL - "I wanted to thank you for all your help and support . . . I removed my (name omitted) reefing system and topping lift because it kept on getting caught around my backstay . . . The system has worked great in light and in heavy air . . . and I am extremely happy with its quality."

Various boats, Capt. Don Ferrell, Rigger & Delivery Skipper, Portland, OR - "I have installed E-Z-JAX on several yachts and am convinced that E-Z-JAX are the best of the patented lazy jacks and advise any passage maker to put on a set - - If this sounds like I am enthusiastic about E-Z-JAX, your XX right I am. . ."

Hunter 26, Walt Remele, Wasilla, AK - "installed the system 2 seasons ago and it has worked flawlessly , , the (company) is very willing to give support over the phone."

Hunter 29.5, Bruce Leidal, Livonia, MI - "They work great. I have added return lines to allow me to raise and lower them from the cockpit."

Hunter 31, Alan Christensen, White Stone, VA - "I installed your E-Z-JAX system three years ago and it was one of the best improvements I have made to my 1985 Hunter 31 . . . E-Z-JAX are the only way to go. Your installation instructions are excellent as is the quality and workmanship."

Cal 2-30, Matt Farrell, Manchester, CT - ". . . installed quite simply . . . works like a charm . . . used to take two adults wrestling the main on either side of the boom . . . had to reflake it at the dock . . . Now it almost flakes itself. I cannot believe how I went without these for so long. Your measurements were perfect . . . custom built for my boat. I am your non-commission sales rep to everyone in my marina. Thank you very much for a superior product."

Custom 38 Sloop, Bill Stokely, San Rafael, CA - "system works great."

Cal 2-29, Scott Kearney, Sarasota, FL - "works very well and we're quite pleased at not having to fight with the main any longer."
